

Buckingham Climbers

BuckLite Titanium

Buckingham has been making climbers since 1896. Since then, materials have gotten stronger and lighter. The BuckLite Titanium climber is the result of over 110 years of materials and process improvements. It is the lightest and strongest climber yet from Buckingham. They are 11% lighter than traditional steel climbers (1-1/2 lbs. per pair) and are strong enough to provide years of service. They are available with 3-1/2" permanent tree gaffs or 2-3/4" replaceable tree gaffs. Replacement 1-3/4" pole gaffs are sold separately. Replacement gaffs are screw-style making gaff replacement in the field quick and easy. The BuckLite Titanium is available as a complete set with padded leather pads and nylon straps or without pads and straps so that you can build your perfect set.

- Strong and lightweight Titanium
- Lighter than traditional steel climbers by 1-1/2 lbs. per pair
- Contoured shank

- Straight stirrup
- Sleeve adjusts from 16-1/4" to 18-3/4"
- Leather pads and nylon straps
- Rated to 350 lbs. per pair

2-3/4" Replaceable Tree Gaff (Screw type gaff)

B1ABTB93059	Complete set
B1ABTB9309	Climbers only (no pads or straps)

3-1/2" Permanent Tree Gaff

B1ABTB81429R	Complete set
B1ABTB9142R	Climbers only (no pads or straps)

Buckingham Steel

The traditional steel climber is an ideal economical climber. The replaceable gaff climbers come with the straight shank standard, but are available with a twisted shank to help reduce chafing for those who have a problem with climbers moving to the back of their heels. The Buckingham Steel climbers are available with either 3-1/2" permanent tree gaffs or 2-3/4" replaceable tree gaffs. Replacement pole gaffs are sold separately. Replacement gaffs are screw-style making gaff replacement in the field quick and easy. This climber is available as a complete set with padded leather pads and nylon straps or without pads and straps so that you can build your perfect set.

- Strong steel construction
- Sleeve adjusts from 16-1/4" to 18-3/4" by 1-1/2 lbs. per pair
- Contoured shank

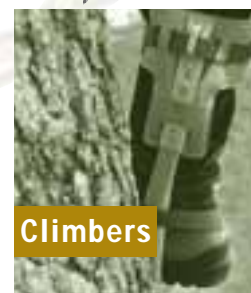

- Straight stirrup
- Leather pads and nylon straps
- Rated to 350 lbs. per pair

2-3/4" Replaceable Tree Gaff

B1AB93059	Complete set—straight shank
B1AB93059T	Complete set—twisted shank
B1AB9309	Climbers only (no pads or straps)

3-1/2" Permanent Tree Gaff

B1AB81429R	Complete set
B1AB9142R	Climbers only (no pads or straps)

Climbers

Klein Tools

Replaceable Gaff Tree Climbers

Klein manufactures rugged and durable tree climbers that incorporate all of the features that professional users have found most desirable over the years. These adjustable climbers have contoured leg irons that help position gaffs securely and steel sleeves that move in 1/4" increments for maximum comfort and fit. All climbers come with large, cushioned, high-grade leather climbing pads and Neoprene-impregnated nylon upper and lower straps for longer lasting life.

- Complete set
- 2-3/4" replaceable tree gaff
- Leather pads and nylon straps

- Contoured leg irons
- Adjustable sleeves
- Steel split rings

Climb Right Aluminum

Aluminum Replaceable Gaff Stirrups

Climb Right's aluminum climbers are manufactured from aircraft grade aluminum making them lighter than traditional steel climbers. The 2-5/8" tree gaffs are made from quenched and tempered steel leading to a breaking strength of 40,000 pounds. Sleeves are adjustable from 15-3/4" to 18-3/4" to fit a wide variety of users. All these features result in a lightweight, yet incredibly strong climber that is manufactured to ASTM F887-97 standards.

- Complete set includes leather pads and neoprene impregnated nylon straps
- Steel tree gaffs are 2-5/8" long
- Strong lightweight aluminum
- Sleeves adjust from 15-3/4" to 18-3/4"
- Meets all ASTM standards

2-5/8" Replaceable Tree Gaff

B1AB9215

Sleeve Fasteners

- For Buckingham Climbers with sleeve holes that are threaded.

B1AB996

Split Rings

- 1-1/8" split ring
- Easily attaches to climber stirrup

B1AB9218

CLIMBING SPURS Climbing spurs provide an efficient means of entering the tree but are a valid choice only when climbing and working in trees that are to be removed. The only exception to this is in the event of an emergency to expedite an aerial rescue. These limitations are due to the potential for causing injury to the tree from wounds left by the gaffs, or spurs, particularly on thin barked trees. - Extra large 9" x 12" design
- Distributes pressure evenly for comfort
- Weather-resistant top grain steer hide
- 1/2" thick felt back
- Tunnel for climber shank and 1-1/4" slots for straps
- Requires two 26" straps
- Sold in pairs

B1AB0897157

Velcro® Cushion Wrap Pads

These pads from Buckingham are easy to put on and more comfortable than conventional climber pads. They are a 4" wide and have a generous 3/4" of padding. The rolled edge prevents chafing and the stitched tunnel provides a secure fit. They are available with or without cinch loops and with or without metal inserts. The metal insert is designed to keep the climber shank stationary and reduce chafing to the leg. Fits Buckingham, Bashlin, and Klein* climbers.

*Pads with metal inserts do not fit Klein climbers.

- For straight stirrup
- Metal insert
- Cinch loop

B1AB3504C

- For angled stirrup
- Metal insert
- No cinch loop

B1AB3502

- For angled stirrup
- Metal insert
- Cinch loop

B1AB3502C

- No metal insert
- Cinch loop
- Fits Klein climbers
